AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph beginning on page 1, line 20 as follows:

Figure 4 shows an example of a basic configuration of an **[[a]]** adaptive PD distortion compensation amplifier (APD distortion compensation amplifier).

Please amend the paragraph beginning on page 7, line 32 to page 8 line 2 as follows:

Also, distortion produced by an amplifier is compensated for using the amplifier apparatus according to the present invention comprising the following means as an **[[a]]** example configuration. This example configuration corresponds to the adaptive predistortion method.
